### Weekly Value – Humility

*'Humble yourselves before the Lord, and He will lift you up.'*  
James 4:10

Dear Parents,

It is hard to believe that we are only two weeks away from the Spring Break! Friday saw our Comic Relief fundraiser and the school certainly looked very red. Children embraced the message behind Comic Relief and not only donated for the course but also took part in a range of activities. I was given the dubious honour of judging the Year 5 and 6 joke competition and there was certainly much to admire about the standard of humour!

Thursday afternoon is the Year 2 Parents' SATS Information session. This will take place at 3.40pm in Mrs Albertelli's classroom and is aimed at supporting parents with understanding the process. All parents of children in Year 2 are encouraged to attend the meeting.

Next Thursday March 28<sup>th</sup> sees our Mother's Day Celebration Afternoon. Beginning at 2pm, this is sure to be a fantastic afternoon with children having opportunity to celebrate the difference their mums make to their lives whilst the PTA will be offering refreshments. Everyone is welcome to attend and it would be great to see another positive attendance.

Best wishes,

Mr G. Coyne (Acting Headteacher)

### Federation Response from Governors

Following our recent consultation on the federation of Huxley CE Primary School and Utkinton St Paul's CE Primary School we would like to thank parents and stakeholders for taking the time to share your views with us. The governing bodies at both schools are committed to making a decision in the best interests of the children and staff at both schools and one that will build on the successful collaboration work to date. During the consultation process a number of issues were raised which require further investigation and as a result governors are unable to reach a formal decision at this point in time. Meanwhile we will continue as two schools operating in a soft federation. Please be assured that we will keep you updated on developments as the issues are addressed.

### Infants Working Scientifically Exploring Habitats

Last week, the Infant children worked in groups to identify plants in their habitats. The children took on the role of the locator, the recorder or the researcher. They located the plants, researched them using the Ipad and then used a tally chart to record how many they found. They also looked closely to find out if the plants were sheltering any animals.
